

## Picnic Fun Screen

The Picnic Fun is a screen system for both office desk and seating use. The screens are freestanding with customisable upholstery.

The desk screen Picnic Fun complements agile workspaces by partitioning both normal and sit-stand desks, and encourages collaboration while maintaining privacy.

The screened enclosure Picnic Fun captures loose ottomans and small seating on the run to add order and privacy. Made to complement the Funhouse collection but can adapt to a variety of ottomans, benches and stools.
